

SPECIAL INVESTIGATION PACKAGE FOR APPLIANCES
TRIDENT ENGINEERING ASSOCIATES, INC.
2010 Industrial Drive
Annapolis, MD 21401-2942

PURPOSE:

The purpose of this special package from Trident Engineering Associates, Inc. (Trident) is to provide an opportunity to commission a limited forensic evaluation to establish a subrogation potential at a known, fixed cost for appliances. Frequently this special investigation package is used to supplement an Origin-and-Cause investigation when a short analysis of specific evidence or circumstances by a trained specialist is required. Other uses may also exist.

COST:

\$499.⁰⁰ USD

CONTENTS OF THE PACKAGE:

Trident will perform a limited, non-destructive evaluation of evidence delivered prepaid to our offices in Annapolis, Maryland or Carlisle, Pennsylvania. The evaluation/analysis will attempt to determine, where possible, whether or not the subject evidence is defective, and whether or not the associated claim has subrogation potential. Trident will report its findings in the form of either a verbal or brief written report. The client may select the form of reporting.

STORAGE OF EVIDENCE:

If Trident is authorized by e-mail or in writing within thirty (30) days of the issue date of the report to dispose of the evidence, no storage fees will be charged. If requested, or if no specific instructions are received, Trident will store the evidence involved at a cost of \$30.00 per month for small items and \$60.00/month for large items such as refrigerators.

EVIDENCE DISPOSAL COSTS:

There is a \$50 charge for evidence disposal. If the evidence is to be returned, the costs of shipping and handling will be invoiced to the client.

HOW TO SUBSCRIBE:

To subscribe, contact Mr. Ronald Hauge at 410-224-3550 or rhaug@tridentemail.com and mention “**\$499 Special – Limited Analysis**”. Subscribe on line by entering “**\$499 Special – Limited Analysis**” in the Other Important Information box on the Submit New Case page.

AVAILABILITY OF ADDITIONAL SERVICES:

- Additional time and other services are available directly from Trident at its normal, low rates should they be needed.
- Evidence pick-up service is available directly from Trident at a reasonable charge.
